Vila Nova de Gaia - Portugal

## Goal

- Frontend

## Education

- **Scrimba**
  - React 2022 - 2022
- **FreeCodeCamp**
  - JavaScript Algorithms and Data Structures 2021 - 2022
- **Udemy**
  - Full Modern Web Course with JavaScript 2021 - 2022
- **Curso em Video**
  - JavaScript, HTML and CSS 2021 - 2021
- **Curso em Video**
  - Python 2020 - 2021
- **Delfin English School**
  - English as a second language 2015 - 2018
- **Universidade Paulista**
  - Bachelor degree in Sports Science 2010 - 2014

## Projects

**Link Saver** - [demo](#) / [code](#)

- This App saves the name, store, price and link of products.
- The information is rendered on a side bar with edit and delete buttons so the user can update its state.
- Search and price filters make it easier for the user to reduce the list of products displayed or simply organize them.
- I used local storage to store the data and React hooks to handle its state and display it on the browser.

**Calculator** - [demo](#) / [code](#)

- Main functions of a calculator.
- Quick and simple equations with a nice user interface.
- Responsive and well styled buttons.

**Travel journal** - [demo](#) / [code](#)

- This travel journal shows pictures and information such as name, location, date and a quick description of a few places I have visited.
- The data is passed from parent to child through props, therefore all the content is displayed without having to modify the posts one by one.
- The location link redirects the user to google maps showing the whereabouts of each place.

**Countdown** - [demo](#) / [code](#)

- Set-time button displays arrows on the browser enabling the user to choose the time and it only functions if the current time is equal to zero or the running time is paused.
- The start button hides the arrows, updates the time and switches to a pause button.
- The pause button stops the time, enables the set-time button to function again and switches back to start button.

## Skills

HTML, CSS, JavaScript, React, Bootstrap, Python, JQuery, Node.js, Git, Github .

## Experience

**BAO'S Taiwanese Burguer** - Porto, Portugal

- Waiter 2019 - 2021

**Natural Bakery** - Dublin, Ireland

- Barista 2016 - 2018

**Koka Academia** - Sao Paulo, Brazil

- Personal Trainer & Swimming coach 2010 - 2015

## Hobbies

- Travelling and Experiencing new cultures.
- Exercising and keeping a healthy life-style.
- Exploring new tech and video-games.
